

## Nortriptyline Hydrochloride Capsules

<b>Type of Posting</b>	Revision Bulletin
<b>Posting Date</b>	30-Sep-2022
<b>Official Date</b>	1-Oct-2022
<b>Expert Committee</b>	Small Molecules 4

In accordance with the Rules and Procedures of the Council of Experts, the Small Molecules 4 Expert Committee has revised the Nortriptyline Hydrochloride Capsules monograph. The purpose of this revision is to add *Dissolution Test 2* to accommodate FDA-approved drug products with different dissolution conditions and/or tolerances than the existing dissolution test(s). Labeling information has been incorporated to support the inclusion of *Dissolution Test 2*.

- *Dissolution Test 2* was validated using the Hypersil BDS C8 brand of column with L7 packing. The typical retention time for nortriptyline is about 4 min.

The Nortriptyline Hydrochloride Capsules Revision Bulletin supersedes the currently official monograph.
